Sea Vista sewer to get R50-million upgrade

An upgrade to the Sea Vista Waste Water Treatment Works (WWTW) is underway and is expected to be completed in the 2019/2020 financial year at a total cost of about R50-million.

SRK Consulting has been appointed as the consultant and Prentec Technical Services as the contractor. The contract comprises the refurbishment of the existing plant, including all civil, mechanical and electrical works.

The capacity of the WWTW, situated along the R330 between St Francis Bay and Cape St Francis, will be more

than doubled from the current 750kl per day to 2Ml per day.

"The upgrade is an important step forward for the building of RDP houses in the area as it will put in place the required sewer capacity,"

Kouga Mayor, Etza van Lingen said. The upgrade is expected to increase the capacity of the plant so as to cater for future developments at Sea Vista, St Francis Bay and Cape St Francis. It will also ensure effluent discharged from the plant complies with the relevant norms and standards.

Existing facilities will be inspected,

cleaned and repaired or demolished and new buildings and structures will also be constructed. This will include a new inlet works, balancing dam and sludge drying beds, as well as an office, ablation facilities, generator room and chlorine dosing building.

In addition existing infrastructure that has been abandoned will also be made safe.

The site is a low-lying area, prone to flooding and ponding during rainy periods and the contractor has been notified so he can take steps to prevent delays in completing the work, the mayor said.

The upgrade of St Francis WWTW follows on the completion of the Kruisfontein Waste Water Treatment at a cost of R85-million.

Objection period for property valuations closing

Kouga Municipality's new General Valuation Roll is still open for inspection. The closing date for the submission of objections is 30 April 2018.

The valuer is available to meet with property owners for clarities. For general enquiries or an appointment with the valuer contact 042 2002157
